Design Document

Project Objective:

This is a personal home page in which displays my profile, education history, skills, projects and personal interests. And this can be used in the job application.
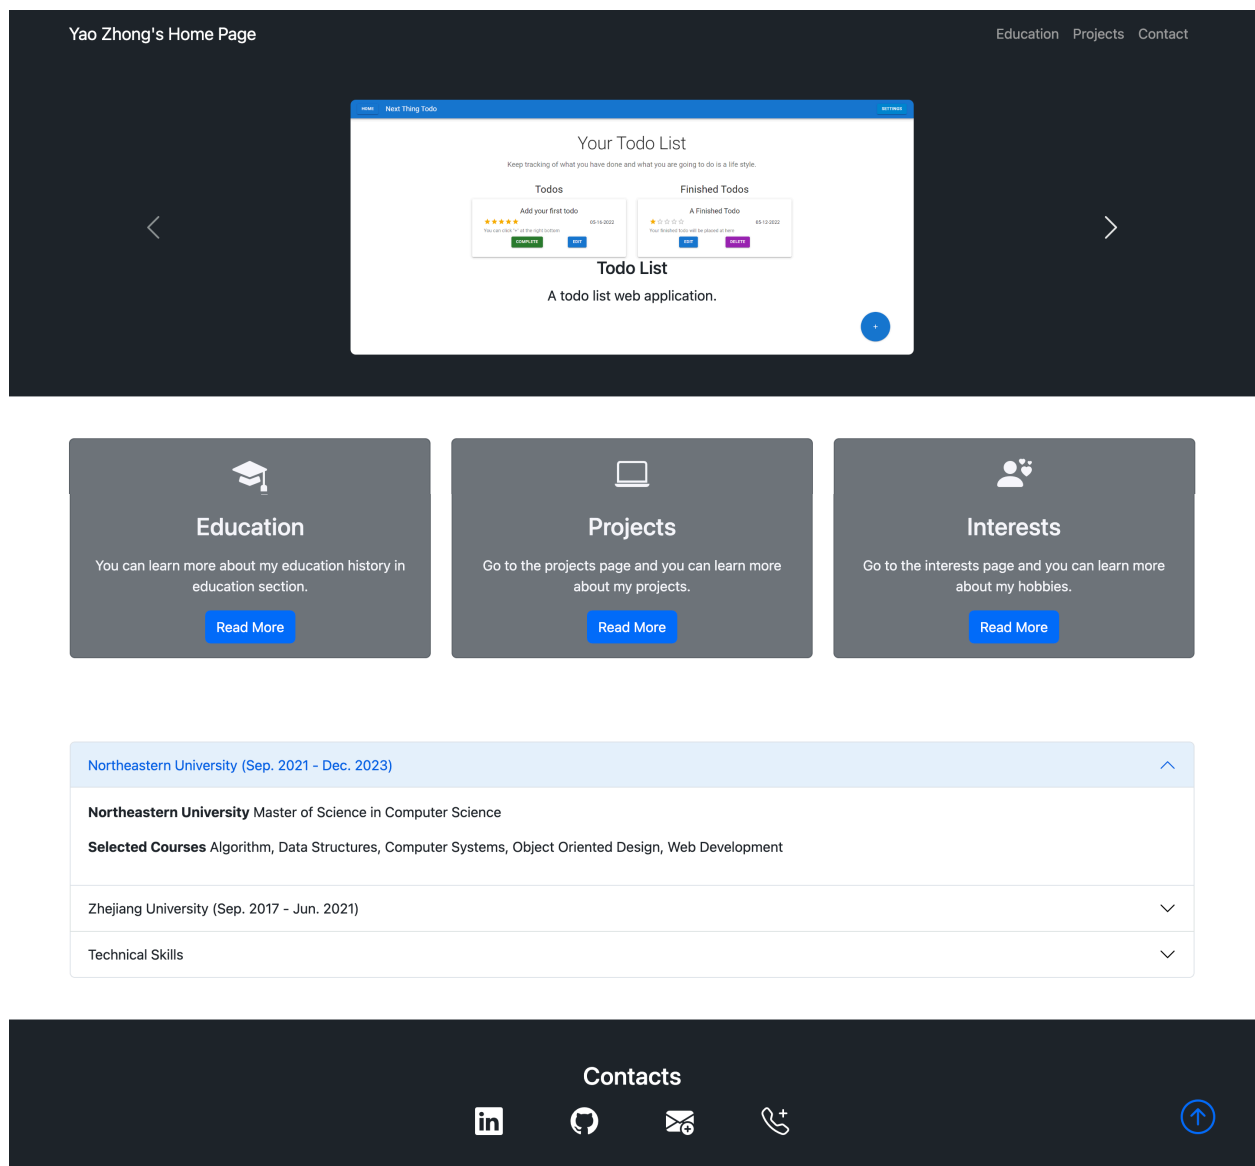

User personas:

Yao Zhong(myself) can use this in job application as a display of myself.

User Story:

As a software developer, I need a way to display my skills and I also need a personal page when filling job application forms.

Design mockup:

Front page, quick display of projects and all the links to other pages, including education and contact information.

Education

You can learn more about my education history in education section.
